## **Independent Auditors' Report**

TO PANJIT INTERNATIONAL INC.

## Opinion

We have audited the accompanying consolidated balance sheets of PANJIT INTERNATIONAL INC. (the "Company") and its subsidiaries as of 31 December 2021 and 2020, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years ended 31 December 2021 and 2020, and notes to the consolidated financial statements, including the summary of significant accounting policies (together "the consolidated financial statements").

In our opinion, based on our audits and the reports of other independent accountants (please refer to the Other Matter – Making Reference to the Audits of Other Independent Accountants section of our report), the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of 31 December 2021 and 2020, and their consolidated financial performance and cash flows for the years ended 31 December 2021 and 2020, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, interpretations developed by the International Financial Reporting Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China.

## **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company and its subsidiaries in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits and the reports of other independent accountants, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2021 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## 1. <u>Revenue Recognition</u>

The consolidated operating revenues of the Company and its subsidiaries amounted to \$13,861,744 thousand for the year ended 31 December 2021. The main source of revenue is manufacturing and selling diodes. As the operation spanned globally and the product combination and pricing methods were diverse, judgment of the performance obligation and when it is satisfied was required. Therefore, we considered this a key audit matter.

Our audit procedures included (but are not limited to) assessing the appropriateness of the accounting policy of revenue recognition; testing the design and operating effectiveness of internal controls around revenue recognition by management, including identifying completeness of performance obligation of client contracts and the accounting treatment of the timing of revenue recognition; performing analytical procedures on gross margin by products and departments; selecting samples to perform test of details and reviewing significant terms and conditions of contracts; performing cutoff procedures, testing general journal entry, reviewing sales transaction certificates before and after the balance sheet date to verify that revenue has been recorded in the correct accounting period. Accordingly, evaluating the appropriateness of significant sales returns and rebates. In addition, we also considered the appropriateness of sales. Please refer to Notes 4 and 6 to the Company's consolidated financial statements.

## 2. Evaluation of Inventories

As of 31 December 2021, the Company and its subsidiaries' net inventories amounted to \$2,421,044 thousand, constituting 9% of consolidated total assets which was then identified as material to financial statement. The status of inventory was difficult to manage due to various types of stocks stored across various locations including outsourced warehouses. Such inventories are stated at the lower of cost and net realizable value. Evaluation involves management's significant accounting estimation and judgement, and the carrying amount of inventories is material to consolidated financial statements. Therefore we considered this a key audit matter.

Our audit procedures included (but are not limited to) assessing the appropriateness of the accounting policy of inventories evaluation; testing the design and operating effectiveness of internal controls around revenue recognition by management, including assessing the transfer of inventory cost, selecting major warehouse to observe physical stock taking to verify inventory quantity and status; and assessing the management's estimates of net realizable value by inventories evaluation, and selecting samples to verify related certificates to test the correctness of inventories aging interval; review whether obsolescence loss allowance was sufficient according to policy and assess the appropriateness of the provision policy. We also assessed the adequacy of disclosures of inventories. Please refer to Notes 4, 5 and 6 to the Company's consolidated financial statements.

## Other Matter – Making Reference to the Audits of Other Independent Accountants

We did not audit the financial statements of certain investment accounted for under the equity method, which reflected the associates and joint ventures under equity method in the amount of \$1,574,237 thousand, constituting 6% of consolidated total assets as of 31 December 2021. The related shares of profits from the associates and joint ventures under the equity method of \$92,457 thousand, constituting 4% of consolidated pretax income, and the related shares of other comprehensive income from the associates and joint ventures under the equity method of (\$3,467) thousand, constituting 2% of consolidated other comprehensive income for the year ended 31 December 2021. Those financial statements were audited by other independent accountants, whose reports there on have been furnished to us, and our audit results are based solely on the reports of the other independent accountants.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, Interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the ability to continue as a going concern of the Company and its subsidiaries, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company and its subsidiaries.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company and its subsidiaries.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company and its subsidiaries. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its subsidiaries to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the accompanying notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2021 consolidated financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances. we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Others

We have audited and expressed an unqualified opinion on the parent company only financial statements of the Company as of and for the years ended 31 December 2021 and 2020.

# PANJIT INTERNATIONAL INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED 31 DECEMBER 2021 AND 2020 (Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

## 1. History and organization

PANJIT INTERNATIONAL INC. (the Company) was incorporated on 20 May 1986, under the Company Act of the Republic of China on Taiwan. The Company's registered address is No. 24, Gangshan N. Rd., Gangshan Dist., Kaohsiung City. The principal activities of the Company are to manufacture, process, assemble and to import and export semiconductors. The Company also assembles, trades and transfers technological advancements of machinery parts. The Company also trades resins and paints for semiconductors.

The Company's shares commenced trading on Taipei Exchange Market (GreTai Securities Market) on 22 December 1999, and then trading on Taiwan Stock Exchange Corporation on 17 September 2001.

## 2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries ("the Group") for the years ended 31 December 2021 and 2020 were authorized for issue by the Board of Directors on 25 March 2022.

## 3. <u>Newly issued or revised standards and interpretations</u>

(1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after 1 January 2021. The adoption of these new standards and amendments had no material impact on the Group.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are endorsed by FSC, but not yet adopted by the Group as at the end of the reporting period are listed below.

| Items | New, Revised or Amended Standards and Interpretations | Effective Date issued by |
|-------|---|--------------------------|
|       |   | IASB                     |
| а     | Narrow-scope amendments of IFRS, including            | 1 January 2022           |
|       | Amendments to IFRS 3, Amendments to IAS 16,           |                          |
|       | Amendments to IAS 37, and Annual Improvements         |                          |

- (a) Narrow-scope amendments of IFRS, including Amendments to IFRS 3, Amendments to IAS 16, Amendments to IAS 37, and Annual Improvements
  - A. Updating a Reference to the Conceptual Framework (Amendments to IFRS 3)

The amendments updated IFRS 3 by replacing a reference to an old version of the Conceptual Framework for Financial Reporting with a reference to the latest version, which was issued in March 2018. The amendments also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential "day 2" gains or losses arising for liabilities and contingent liabilities. Besides, the amendments clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Conceptual Framework.

B. Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)

The amendments prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

C. Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments clarify what costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous.

D. Annual Improvements to IFRS Standards 2018 - 2020

#### Amendment to IFRS 1

The amendment simplifies the application of IFRS 1 by a subsidiary that becomes a firsttime adopter after its parent in relation to the measurement of cumulative translation differences.

Amendment to IFRS 9 Financial Instruments

The amendment clarifies the fees a company includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability.

Amendment to Illustrative Examples Accompanying IFRS 16 Leases

The amendment to Illustrative Example 13 accompanying IFRS 16 modifies the treatment of lease incentives relating to lessee's leasehold improvements.

## Amendment to IAS 41

The amendment removes a requirement to exclude cash flows from taxation when measuring fair value thereby aligning the fair value measurement requirements in IAS 41 with those in other IFRS Standards.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2022. Have no material impact on the Group.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

| Items | New, Revised or Amended Standards and Interpretations   | Effective Date issued by IASB |
|-------|---|-------------------------------|
| а     | IFRS 10 "Consolidated Financial Statements" and IAS 28  | To be determined              |
|       | "Investments in Associates and Joint Ventures" — Sale or<br>Contribution of Assets between an Investor and its Associate or | by IASB                       |
|       | Joint Ventures  |                               |
| b     | IFRS 17 "Insurance Contracts"   | 1 January 2023                |
| c     | Classification of Liabilities as Current or Non-current -   | 1 January 2023                |
|       | Amendments to IAS 1   |                               |
| d     | Disclosure Initiative - Accounting Policies - Amendments to IAS 1   | 1 January 2023                |
| e     | Definition of Accounting Estimates – Amendments to IAS 8  | 1 January 2023                |
| f     | Deferred Tax related to Assets and Liabilities arising from a Single  | 1 January 2023                |
|       | Transaction – Amendments to IAS 12  |                               |

(a) IFRS 10"Consolidated Financial Statements" and IAS 28"Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

(b) IFRS 17 "Insurance Contracts"

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The fulfilment cash flows comprise of the following:

- (1) estimates of future cash flows;
- (2) Discount rate: an adjustment to reflect the time value of money and the financial risks related to the future cash flows, to the extent that the financial risks are not included in the estimates of the future cash flows; and
- (3) a risk adjustment for non-financial risk.

The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims. Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after 1 January 2023 (from the original effective date of 1 January 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after 1 January 2023.

(c) Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(d) Disclosure Initiative - Accounting Policies - Amendments to IAS 1

The amendments improve accounting policy disclosures that to provide more useful information to investors and other primary users of the financial statements.

(e) Definition of Accounting Estimates – Amendments to IAS 8

The amendments introduce the definition of accounting estimates and included other amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to help companies distinguish changes in accounting estimates from changes in accounting policies.

(f) Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments narrow the scope of the recognition exemption in paragraphs 15 and 24 of IAS 12 so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, and the local effective dates are to be determined by FSC. The new or amended standards and interpretations have no material impact on the Group.

#### 4. Summary of significant accounting policies

(1) Statement of compliance

The consolidated financial statements of the Group for the years ended 31 December 2021 and 2020 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations"), IFRSs, IASs, IFRIC and SIC, which are endorsed by FSC (TIFRSs).

## (2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars ("\$") unless otherwise stated.

(3) Basis of consolidation

## Preparation principle of consolidated financial statements

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (a) power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- (b) exposure, or rights, to variable returns from its involvement with the investee, and
- (c) the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee
- (b) rights arising from other contractual arrangements
- (c) the Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Company loses control of a subsidiary, it:

- (a) derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- (b) derecognizes the carrying amount of any non-controlling interest;
- (c) recognizes the fair value of the consideration received;
- (d) recognizes the fair value of any investment retained;
- (e) recognizes any surplus or deficit in profit or loss; and
- (f) reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss.

- (Note 1) The Company owned 81.97% of the shares with other subsidiaries, which are consolidated into the Company's financial statements.
- (Note 2) PAN-JIT ASIA INTERNATIONAL INC. owned 100.00% of the shares with other subsidiaries, which are consolidated into the Company's financial statements.
- (Note 3) PAN-JIT ASIA INTERNATIONAL INC. owned 91.71% of the shares with other subsidiaries, which are consolidated into the Company's financial statements.
- (Note 4) AIDE ENERGY (CAYMAN) HOLDING CO., LTD. owned 100% of the shares with other subsidiaries, which are consolidated into the Company's financial statements.

- (Note 5) The Company completed the equity interest transfer of MAX-DIODE ELECTRONIC CO.,LTD. in November 2020.
- (Note 6) In December 2021, PAN-JIT ASIA INTERNATIONAL INC. acquired 4.18% of the shares from JOYSTAR INTERNATIONAL CO., LTD., and other juridical persons, which increased the percentage of ownership interests from 90.25% to 94.43%.
- (Note 7) PAN JIT ELECTRONIC (WUXI) CO., LTD invested in and founded the subsidiary, PAN JIT SEMICONDUCTOR(XUZHOU) CO., LTD., in September 2021, and owns 100% of the shares. PAN JIT SEMICONDUCTOR (XUZHOU) CO., LTD is therefore incorporated in the Company's consolidated financial statements
  - (4) Foreign currency transactions

The Group's consolidated financial statements are presented in NT\$, which is also the parent company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- (a) Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- (b) Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- (c) Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(5) Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NT\$ at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. The following partial disposals are accounted for as disposals:

- (a) when the partial disposal involves the loss of control of a subsidiary that includes a foreign operation; and
- (b) when the retained interest after the partial disposal of an interest in a joint arrangement or a partial disposal of an interest in an associate that includes a foreign operation is a financial asset that includes a foreign operation.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or joint arrangement that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Any goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and expressed in its functional currency.

(6) Current and non-current distinction

An asset is classified as current when:

- (a) The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- (b) The Group holds the asset primarily for the purpose of trading
- (c) The Group expects to realize the asset within twelve months after the reporting period
- (d) The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- (a) The Group expects to settle the liability in its normal operating cycle
- (b) The Group holds the liability primarily for the purpose of trading
- (c) The liability is due to be settled within twelve months after the reporting period
- (d) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(7) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid time deposits (including fixed-term deposits that have maturity within three months from the date of acquisition) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(8) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 Financial Instruments are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

## A. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) the Group's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

#### Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

#### Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
  - (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
  - (ii)Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represent a recovery of part of the cost of investment.

#### Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

#### B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the balance sheet.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follows:

- (a)At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- (b)At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c)For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d)For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

## C. Derecognition of financial assets

A financial asset is derecognized when:

- i. The rights to receive cash flows from the asset have expired
- ii. The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- iii. The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

## D. Financial liabilities and equity

## Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

## Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

## Compound instruments

The Group evaluates the terms of the convertible bonds issued to determine whether it contains both a liability and an equity component. Furthermore, the Group assesses if the economic characteristics and risks of the put and call options contained in the convertible bonds are closely related to the economic characteristics and risk of the host contract before separating the equity element.

For the liability component excluding the derivatives, its fair value is determined based on the rate of interest applied at that time by the market to instruments of comparable credit status. The liability component is classified as a financial liability measured at amortized cost before the instrument is converted or settled.

For the embedded derivative that is not closely related to the host contract (for example, if the exercise price of the embedded call or put option is not approximately equal on each exercise date to the amortized cost of the host debt instrument), it is classified as a liability component and subsequently measured at fair value through profit or loss unless it qualifies for an equity component. The equity component is assigned the residual amount after deducting from the fair value of the instrument as a whole the amount separately determined for the liability component. Its carrying amount is not remeasured in the subsequent accounting periods. If the convertible bond issued does not have an equity component, it is accounted for as a hybrid instrument in accordance with the requirements under IFRS 9 Financial Instruments.

Transaction costs are apportioned between the liability and equity components of the convertible bond based on the allocation of proceeds to the liability and equity components when the instruments are initially recognized.

On conversion of a convertible bond before maturity, the carrying amount of the liability component being the amortized cost at the date of conversion is transferred to equity.

#### Financial liabilities

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

#### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. A financial liability is classified as held for trading if:

- i. it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- ii. on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- iii. it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

- i. it eliminates or significantly reduces a measurement or recognition inconsistency; or
- ii. a group of financial liabilities or financial assets and financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

### Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

## Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

## E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

## (9) Derivative instrument

The Group uses derivative instruments to hedge its foreign currency risks and interest rate risks. A derivative is classified in the balance sheet as financial assets or liabilities at fair value through profit or loss (held for trading) except for derivatives that are designated effective hedging instruments which are classified as derivative financial assets or liabilities for hedging.

Derivative instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. The changes in fair value of derivatives are taken directly to profit or loss, except for the effective portion of hedges, which is recognized in either profit or loss or equity according to types of hedges used.

When the host contracts are either non-financial assets or liabilities, derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are separated from the host contract and accounted for as a derivative.

(10) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

#### (11) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Raw materials -Purchase cost on weighted average cost basis

Finished goods and work in progress – Cost of direct materials, labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Rendering of services is accounted in accordance with IFRS 15 and not within the scope of inventories.

(12)Non-current assets held for sale and discontinued operations

Non-current assets and disposal groups are classified as held for sale if their carrying amounts will be recovered through a sale transaction that is highly probable within one year from the date of classification and the asset or disposal group is available for immediate sale in its present condition. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

In the consolidated statement of comprehensive income of the reporting period, and of the comparable period of the previous year, income and expenses from discontinued operations are reported separately from income and expenses from continuing operations, down to the level of profit after taxes, even when the Group retains a non-controlling interest in the subsidiary after the sale. The resulting profit or loss (after taxes) is reported separately in the statement of comprehensive income.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

(13) Investments accounted for using the equity method

The Group's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Group has significant influence.

Under the equity method, the investment in the associate is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associate. After the interest in the associate is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. Unrealized gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the Group's related interest in the associate.

When changes in the net assets of an associate occur and not those that are recognized in profit or loss or other comprehensive income and do not affects the Group's percentage of ownership interests in the associate, the Group recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate on a pro-rata basis. When the associate issues new stock, and the Group's interest in an associate is reduced or increased as the Group fails to acquire shares newly issued in the associate proportionately to its original ownership interest, the increase or decrease in the interest in the associate is recognized in Additional Paid in Capital and Investment in associate. When the interest in the associate is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro-rata basis when the Group disposes the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures*. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 Impairment of Assets. In determining the value in use of the investment, the Group estimates:

- (a) Its share of the present value of the estimated future cash flows expected to be generated by the associate, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
- (b) The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 *Impairment of Assets*.

Upon loss of significant influence over the associate, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(14) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 Property, plant and equipment. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

| Buildings                | $1 \sim 52$ years |
|--------------------------|-------------------|
| Machinery and equipment  | $1 \sim 15$ years |
| Utilities equipment      | $1 \sim 13$ years |
| Transportation equipment | $1 \sim 10$ years |
| Office equipment         | $1 \sim 10$ years |
| Leasehold improvements   | $1 \sim 20$ years |
| Other equipment          | $1 \sim 25$ years |

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate. These changes are treated as accounting estimates.

## (15) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- (a) the right to obtain substantially all of the economic benefits from use of the identified asset; and
- (b) the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

#### Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable by the lessee under residual value guarantees;
- (d) the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- (a) the amount of the initial measurement of the lease liability;
- (b) any lease payments made at or before the commencement date, less any lease incentives received;
- (c) any initial direct costs incurred by the lessee; and
- (d) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Group applies IAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

## Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straightline basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

#### (16)Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

A summary of the policies applied to the Group's intangible assets is as follows:

|                      | Computer software                  | Other intangible assets             |
|----------------------|------------------------------------|-------------------------------------|
| Useful lives         | Finite $(1 \sim 10 \text{ years})$ | Finite $(1 \sim 10 \text{ years})$  |
| Amortization         | Amortized on a straight-           | Amortized on a straight- line basis |
| method used          | line basis over the estimated      | over the estimated useful life      |
|                      | useful life                        |                                     |
| Internally generated | Acquired                           | Acquired                            |
| or acquired          |                                    |                                     |

## (17) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 Impairment of Assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro-rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

#### (18) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probably that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

#### Provision for warranties

A provision is recognized for expected warranty claims on products sold, based on past experience, management's judgement and other known factors.

#### (19) Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. Any difference between the carrying amount and the consideration is recognized in equity.

#### (20) Revenue recognition

The Group's revenue arising from contracts with customers are primarily related to sale of goods. The accounting policies are explained as follows:

#### Sale of goods

The Group manufactures and sells goods. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Group is diode and rectifier and revenue is recognized based on the consideration stated in the contract.

The Group provides its customer with a warranty with the purchase of the products. The warranty provides assurance that the product will operate as expected by the customers. And the warranty is accounted in accordance with IAS 37.

The credit period of the Group's sale of goods is from 30 to 120 days. For most of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. For some of the contracts, the Group has transferred the goods to customers but does not has a right to an amount of consideration that is unconditional, these contract assets. Besides, in accordance with IFRS 9, the Group measures the loss allowance for a contract asset at an amount equal to the lifetime expected credit losses. However, for some contracts, part of the consideration was received from customers upon signing the contract, and the Group has the obligation to transfers the goods subsequently; accordingly, these amounts are recognized as contract liabilities.

The period between the transfers of contract liabilities to revenue is usually within one year, no significant financing component has arisen.

In contracts between the Group and its customers, the period during which the promised goods are delivered to the customer and the customer paid was not more than one year. Therefore, the Group didn't adjust the transaction price for the time value of money.

#### (21) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### (22) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

Where the Group receives non-monetary grants, the asset and the grant are recorded gross at nominal amounts and released to the statement of comprehensive income over the expected useful life and pattern of consumption of the benefit of the underlying asset by equal annual installments. Where loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as additional government grant.

#### (23) Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore fund assets are not included in the Group's consolidated financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Re-measurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

- (a) the date of the plan amendment or curtailment, and
- (b) the date that the Group recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted and disclosed for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events.

(24) Share-based payment transactions

The cost of equity-settled transactions between the Company and its employees is recognized based on the fair value of the equity instruments granted. The fair value of the equity instruments is determined by using an appropriate pricing model.

The cost of equity-settled transactions is recognized, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The income statement expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period.

No expense is recognized for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it fully vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the entity or the employee are not met. However, if a new award is substitutes for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

The cost of restricted shares issued is recognized as salary expense based on the fair value of the equity instruments on the grant date, together with a corresponding increase in other capital reserves in equity, over the vesting period. The Company recognized unearned employee salary which is a transitional contra equity account; the balance in the account will be recognized as salary expense over the passage of vesting period.

# (25) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

# Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

# Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- i. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ii. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- i. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ii. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### (26) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred, the identifiable assets acquired, and liabilities assumed are measured at acquisition date fair value. For each business combination, the acquirer measures any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are accounted for as expenses in the periods in which the costs are incurred and are classified under administrative expenses.

When the Group acquires a business, it assesses the assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at the acquisitiondate fair value. Subsequent changes to the fair value of the contingent consideration, which is deemed to be an asset or liability, will be recognized in accordance with IFRS 9 Financial Instruments either in profit or loss or as a change to other comprehensive income. However, if the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured as the amount of the excess of the aggregate of the consideration transferred and the non-controlling interest over the net fair value of the identifiable assets acquired and the liabilities assumed. If this aggregate is lower than the fair value of the net assets acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purpose and is not larger than an operating segment before aggregation.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation. Goodwill disposed of in this circumstance is measured based on the relative recoverable amounts of the operation disposed of and the portion of the cash-generating unit retained.

#### 5. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

#### (1) Judgement

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Certain properties of the Group comprise a portion that is held to earn rentals or for capital appreciation and another portion that is owner-occupied. If these portions could be sold separately, the Group accounts for the portions separately as investment properties and property, plant and equipment. If the portions could not be sold separately, the property is classified as investment property in its entirety only if the portion that is owner-occupied is under 5% of the total property.

#### (2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Fair value of financial instruments

Where the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using valuation techniques including the income approach (for example the discounted cash flow model) or market approach. Changes in assumptions about these factors could affect the reported fair value of the financial instruments. Please refer to Note 12 for more details.

#### (b) Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. The key assumptions used to determine the recoverable amount for the different cash generating units, including a sensitivity analysis, are further explained in Note 6.

#### (c) Pension benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and future salary increases.

#### (d) Revenue recognition - sales returns and allowance

The Group estimates sales returns and allowance based on historical experience and other known factors at the time of sale, which reduces the operating revenue. In assessing the aforementioned sales returns and allowance, revenue is recognized to the extent it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Please refer to Note 6 for more details.

#### (e) Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group company's domicile. Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

(f) Trade receivables-estimation of impairment loss

The Group estimates the impairment loss of trade receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

(g) Inventories

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices may decline. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Notes 6 for more details.

# 6. Contents of significant accounts

# (1) Cash and cash equivalents

|   | As at        |              |
|---|--------------|--------------|
|   | 31 Dec. 2021 | 31 Dec. 2020 |

| Total  | \$3,247,815  | \$1,460,640  |
| —  |              |              |

Financial assets at fair value through profit or loss were not pledged.

(3) Financial assets at fair value through other comprehensive income-Non-current

|  | As at        |              |
|--|--------------|--------------|
| _  | 31 Dec. 2021 | 31 Dec. 2020 |
| Equity instrument investments measured at fair value |              |              |
| through other comprehensive income - Non-current:    |              |              |
| Listed companies stocks                              | \$1,172,635  | \$924,476    |
| Unlisted companies stocks                            | 271,858      | 247,471      |
| Total  | \$1,444,493  | \$1,171,947  |

Financial assets at fair value through other comprehensive income were not pledged.

The Group's dividend income related to equity instrument investments measured at fair value through other comprehensive income for the years ended 31 December 2021 and 2020 are as follow:

|  | For the years ended | For the years ended 31 December |  |
|--|---------------------|---------------------------------|--|
|  | 2021                | 2020                            |  |
| Dividends recognized during the period | \$22,212            | \$11,262                        |  |

In consideration of the Group's investment strategy, the Group disposed, and derecognized partial equity instrument investments measured at fair value through other comprehensive income. Details on derecognition of such investments for the years ended 31 December 2021 and 2020 are as follow:

|  | For the years ended 31 December |           |
|--|---------------------------------|-----------|
|  | 2021                            | 2020      |
| The fair value of the investments at the date of |                                 |           |
| derecognition                                    | \$68,774                        | \$27,580  |
| The cumulative gain or loss on disposal          |                                 |           |
| reclassified from other equity to retained       | \$51,991                        | (\$1,690) |
| earnings   |                                 |           |

(4) Financial assets measured at amortized cost-Non-current

|                  | As at        |              |
|------------------|--------------|--------------|
|                  | 31 Dec. 2021 | 31 Dec. 2020 |
| nancial products | \$25,604     | \$136,939    |

Financial assets measured at amortized cost were not pledged.

#### (5) Notes receivables

|   | As at        |              |
|---|--------------|--------------|
|   | 31 Dec. 2021 | 31 Dec. 2020 |
| Notes receivables arising from operating activities | \$579,449    | \$368,096    |
| Less: loss allowance                                |              |              |
| Total   | \$579,449    | \$368,096    |

Notes receivables were not pledged.

The Group follows the requirement of IFRS 9 to assess the impairment. Please refer to Note 6.(20) for more details on loss allowance and Note 12 for details on credit risk management.

#### (6) Trade receivables and Trade receivables-related parties

|                                   | As at        |              |
|-----------------------------------|--------------|--------------|
|                                   | 31 Dec. 2021 | 31 Dec. 2020 |
| Trade receivables                 | \$5,362,136  | \$4,909,733  |
| Less: loss allowance              | (1,413,581)  | (1,466,175)  |
| Subtotal                          | 3,948,555    | 3,443,558    |
| Trade receivables-related parties | 140,689      | 58,720       |
| Total                             | \$4,089,244  | \$3,502,278  |

Trade receivables were not pledged.

Trade receivables are generally on 30 to 120 day terms. The total carrying amount as of 31 December 2021 and 31 December 2020 were \$5,502,825 thousand and \$4,968,453 thousand respectively. Please refer to Note 6.(20) for more details on loss allowance of trade receivables for the years ended 31 December 2021 and 2020. Please refer to Note 12 for more details on credit risk management.

#### (7) Inventories

|                  | As at        |              |
|------------------|--------------|--------------|
|                  | 31 Dec. 2021 | 31 Dec. 2020 |
| Raw materials    | \$976,772    | \$685,783    |
| Work in progress | 181,081      | 170,834      |
| Finished goods   | 1,263,191    | 757,842      |
| Total            | \$2,421,044  | \$1,614,459  |

The cost of inventories recognized in expenses amounted to \$9,466,106 thousand and \$8,038,328 thousand for the years ended 31 December 2021 and 2020, respectively, including gain on inventory valuation of \$117,608 thousand and \$219 thousand for the years ended 31 December 2021 and 2020, respectively.

No inventories were pledged.

#### (8) Investments accounted for using the equity method

|                            | As at       |               |           |               |

| Investments in associates: |             |               |           |               |
| ZIBO MICRO COMMERCIAL      | \$177,858   | 26.54%        | \$99,544  | 31.38%        |
| COMPONENT CORP.            |             |               |           |               |
|                            |             |               |           |               |
| MILDEX OPTICAL INC.        | 252,188     | 29.28%        | 293,964   | 29.28%        |
|                            |             |               |           |               |
| ALLTOP THCHNOLOGY CO.,     | 1,574,237   | 19.08%        | —         | —             |
| INC                        |             | (Note)        |           |               |
|                            | \$2,004,283 |               | \$393,508 |               |

(Note) On 5 March 2021, the Group acquired 19.97% of common shares of ALLTOP TECHNOLOGY CO., LTD. In April 2021, the Group purchased additional 220,000 shares resulting in 19.99% of shares. Until December 2021, the conversion of convertible bonds into shares of ALLTOP TECHNOLOGY CO., LTD. caused a change in equity ownership. The percentage of common shares held by the Group was subsequently diluted to 19.08%. Information on the material associate of the Group:

## Company name: ALLTOP TECHNOLOGY CO., LTD.

Nature of the relationship with the associate: ALLTOP TECHNOLOGY CO., LTD. is in the business of research and development, manufacturing and sale of connectors, primarily for servers, automotive and industrial application. Alltop's future development strategy aligns with the Group's targeted business areas. The Group invests in the company with an aim to integrate the resources of both companies, and expand business areas including servers, laptops, automotive, industrial and networking equipment. This is to create synergies between the two firms and to provide customers with more full-range products and services.

Fair value of the investment in the associate when there is a quoted market price for the investment: ALLTOP TECHNOLOGY CO., LTD. is a listed entity on the Taipei Exchange (TPEx). The fair value of the investment in ALLTOP TECHNOLOGY CO., LTD. accounted for using the equity method amounted to \$2,059,391 thousand as of 31 December 2021.

Reconciliation of the associate's summarized financial information presented to the carrying amount of the Group's interest in the associate:

| 2021.12.31  |
|-------------|
| \$3,633,364 |
| (1,135,335) |
| 2,498,029   |
| 19.08%      |
| 476,624     |
| 968,326     |
| 102,726     |
| 26,561      |
| \$1,574,237 |
|             |

(Note) The variance was because the conversion of the convertible bonds into common stocks occurred after acquisition date.

The aggregate financial information of the Group's investments in associates is as follows:

|                                   | For the years ended 31 December |           |
|-----------------------------------|---------------------------------|-----------|
|                                   | 2021                            | 2020      |
| Operating revenue                 | \$449,578                       | -         |
| Profit from continuing operations | \$92,457                        | <b>\$</b> |
| Other comprehensive income        | (\$3,467)                       | <b>\$</b> |
| (post-tax)                        |                                 |           |
| Total comprehensive income        | \$88,990                        | \$-       |

The Group's investments in ZIBO MICRO COMMERCIAL COMPONENT CORP. are not individually material. The aggregate carrying amount of the Group's interests in ZIBO MICRO COMMERCIAL COMPONENT CORP. is \$177,858 thousand and \$99,544 thousand as at ended 31 December 2021 and 2020. The aggregate financial information of the Group's investments in associates is as follows:

|  | For the years ended |              |  |
|--|---------------------|--------------|--|
|  | 31 Dec. 2021        | 31 Dec. 2020 |  |
| (Loss) Profit from continuing operations | (\$4,851)           | \$7,668      |  |

| Operating expenses | \$29,024                         | \$36,451 |  |

## (11)Impairment testing of goodwill

Goodwill acquired through business combinations for impairment testing as follows:

Carrying amount of goodwill allocated to each of the cash-generating units of diodes:

| A            | s at         |
|--------------|--------------|
| 31 Dec. 2021 | 31 Dec. 2020 |
| \$95,193     | \$97,229     |

The impairment testing of goodwill was conducted for the cash-generating unit of diodes on 31 December 2021. This recoverable amount is \$492,194 thousand, which has been determined based on a value in use calculation using cash flow projections from financial budgets approved by management. The projected cash flows have been updated to reflect the change in demand for products and the going concern assumption for the unit. The pre-tax discount rate applied to cash flow projections in 2021 was between 11.75% and 14.81%, and the growth rate was the same as the long-term average growth rate for the industry. Based on the result of this analysis, management did not identify an impairment of goodwill which was allocated to this cash-generating unit.

## Key assumptions used in value-in-use calculations

Gross margins – Gross margins are based on operating results and further average values achieved in the years preceding the start of the budget period.

Discount rates – Discount rates reflect the current market assessment of the risks specific to each cash generating unit (including the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted). The discount rate was estimated based on the weighted average cost of capital (WACC) for the Group, taking into account the particular situations of the Group and its operating segments. The WACC includes both the cost of liabilities and cost of equities. The cost of equities is derived from the expected returns of the Group's investors on capital, where the cost of liabilities is measured by the interest bearing loans that the Group has obligation to settle. Specific risk relating to the operating segments is accounted for by considering the individual beta factor which is evaluated annually and based on publicly available market information.

Growth rate estimates - Rates are based on published industry research.

#### Sensitivity to changes in assumptions

With regard to the assessment of value-in-use of the diodes, management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the unit to materially exceed its recoverable amount.

## (12) Short-term borrowings

|                      | As                  | at                  |

(Note) In August 2021, the Company renewed the syndicated loan contract which it entered into in 2018 with 16 financial institutions, including the Land Bank of Taiwan.

- (A) On 17 August 2021, the Company entered into a syndicated loan contract with 10 financial institutions and the amount of the loan facility was \$4,200,000 thousand for a period of five years starting from the first day the facility is drawn. The facility must be drawn within three months from the execution date of the contract, otherwise the maturity of the said three-month period shall be deemed the first drawdown day. The extract of terms of the contract as following:
  - a. The total amount of the syndicated loan is NT\$4,200,000 thousand.

#### b. Terms of the syndicated loan agreement:

- i. Category 1: Medium-term loan up to \$4,200,000 thousand.
- ii. Category 2: Commercial paper of \$2,940,000 thousand.
- c. The total amount of category 1 and category 2 shall not exceed the total amount of the syndicated loan.
- d. Terms of financial ratios

Within the contract period, the Company is required to calculate annually the financial ratios and agree with assigned threshold based on the figures from audited consolidated financial report.

- i. Current ratio (current asset / current liability): higher than 100%.
- ii. Debt ratio (liability / equity): lower than 200%.
- iii. Interest coverage ratio ( net profit before tax + interest expense + depreciation + amortization ) / interest expense ] : higher than 2.5 times.
- iv. Net worth: higher than NT\$5,300,000 thousand or USD equivalent.
- (B) On 17 October 2018, the subsidiary, PAN-JIT ASIA INTERNATIONAL INC., entered into a syndicated loan contract with 17 financial institutions and the amount of the loan facility was US\$66,000 thousand for a period of five years starting from the first day the facility is drawn. The facility must be drawn within three months from the execution date of the contract, otherwise the maturity of the said three-month period shall be deemed the first drawdown day. The extract of terms of the contract as following:
  - a. Terms of the syndicated loan agreement:
    - i. Category 1: Medium-term loan up to US\$35,000 thousand, which should be used in one time.
    - ii. Category 2: Medium-term loan up to US\$31,000 thousand, which can be used as a revolving loan within the credit period.
  - b. Terms of financial ratios:

Within the contract period, the Company should annually calculate the financial ratios and agree with the assigned figures based on the data from audited consolidated financial report.

- i. Current ratio (current asset / current liability): higher than 100%.
- ii. Debt ratio (liability / equity): lower than 200%.
- iii. Interest coverage ratio ( net profit before tax + interest expense + depreciation + amortization ) / interest expense ] : higher than 2.5 times.
- iv. Net worth: higher than \$5,300,000 thousand or USD equivalent.

Certain property, plant and equipment are pledged as first priority security as well as the top managements are grantors for the secured syndicated loans, please refer to Notes 7 and 8 for more details.

(C) On 9 September 2019, the Company entered into a credit agreement with Taishin International Bank in the amount of NT\$600,000 thousand for the investment program for Welcome Overseas Taiwanese Businesses to return to invest in Taiwan. The related terms are as following:

| Credit line | Credit Period                                  | Interest rate  | Repayment method  |
|-------------|--|--|---|

Certain property, plant and equipment are pledged as first priority security as well as the top managements are grantors for the secured syndicated loans, please refer to Notes 8 for more details.

# (17)Post-employment benefits

# Defined contribution plan

The Company and its domestic subsidiaries adopt a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company and its domestic subsidiaries will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Company and its domestic subsidiaries have made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Subsidiaries located in the People's Republic of China will contribute a certain percentage of employees' salaries or wages as national pension insurance to the employees' individual pension accounts in accordance with local regulations.

Pension benefits for employees of overseas subsidiaries and branches are provided in accordance with the local regulations.

Expenses under the defined contribution plan for the years ended 31 December 2021 and 2020 were \$48,043 thousand and \$43,126 thousand, respectively.

#### Defined benefits plan

The Company and its domestic subsidiaries adopt a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries in the last month of the service year. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units. Under the Labor Standards Act, the Company and its domestic subsidiaries contribute an amount equivalent to 2% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Company and its domestic subsidiaries assess the balance in the designated labor pension fund. If the amount is inadequate to pay pensions calculated for workers retiring in the same year, the Company and its domestic subsidiaries will make up the difference in one appropriation before the end of March in the following year.

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is invested in-house or under mandate, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate manager flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Company does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Group expects to contribute \$2,841 thousand to its defined benefit plan during the 12 months beginning after 31 December 2021.

The average duration of the defined benefits plan obligation as at 31 December 2021 and 2020, are 12 to 18 and 12 to 19 years, respectively.

The pension costs recognized in profit or loss for the years ended 31 December 2021 and 2020 are as follows:

|                              | For the years ended 31 December |         |  |
|------------------------------|---------------------------------|---------|--|
|                              | 2021                            | 2020    |  |
| Current period service costs | \$1,863                         | \$2,024 |  |
| Interest expense             | 462                             | 828     |  |
| Total                        | \$2,325                         | \$2,852 |  |

Changes in the defined benefit obligation and fair value of plan assets are as follows:

|   |              | As at        |             |
|---|--------------|--------------|-------------|
|   | 31 Dec. 2021 | 31 Dec. 2020 | 1 Jan. 2020 |
| Defined benefit obligation                                | \$193,097    | \$194,474    | \$187,860   |
| Plan assets at fair value                                 | (87,536)     | (81,132)     | (79,259)    |
| Other non-current liabilities – Defined benefit           |              |              |             |
| liabilities recognized on the consolidated balance sheets | \$105,561    | \$113,342    | \$108,601   |

Reconciliation of liability (asset) of the defined benefit plan is as follows:

|   |                 | As at         |                   |
|---|-----------------|---------------|-------------------|
|   | Defined benefit | Fair value of | Defined benefit   |
|   | obligation      | plan assets   | liability (asset) |
| As at 1 Jan. 2020                                   | \$187,860       | (\$79,259)    | \$108,601         |
| Current period service costs                        | 2,024           | _             | 2,024             |

| Effect of changes in foreign exchange rates         | —               |               |                   |
| As at 31 Dec. 2021                                  | \$193,097       | (\$87,536)    | \$105,561         |
|   | ·               | /             |                   |

The following significant actuarial assumptions are used to determine the present value of the defined benefit obligation:

|                                   | As at                |                      |
|-----------------------------------|----------------------|----------------------|
|                                   | 31 Dec. 2021         | 31 Dec. 2020         |
| Discount rate                     | 0.71%~0.73%          | 0.38%~0.41%          |
| Expected rate of salary increases | $1.50\% \sim 3.00\%$ | $1.50\% \sim 2.00\%$ |
|                                   |                      |                      |

A sensitivity analysis for significant assumption as at 31 December 2021 and 2020, is as shown below:

|                                | Effect on the defined benefit obligation |            |            | ion        |
|--------------------------------|--|------------|------------|------------|
|                                | 2021                                     |            | 2021 2020  |            |
|                                | Increase                                 | Decrease   | Increase   | Decrease   |
|                                | defined                                  | defined    | defined    | defined    |
|                                | benefit                                  | benefit    | benefit    | benefit    |
|                                | obligation                               | obligation | obligation | obligation |
| Discount rate increase by 0.5% | \$-                                      | \$11,273   | <b>\$</b>  | \$12,891   |
| Discount rate decrease by 0.5% | \$13,338                                 | <b>\$</b>  | \$14,322   | -          |
| Future salary increase by 0.5% | \$13,111                                 | <b>\$</b>  | \$14,072   | -          |
| Future salary decrease by 0.5% | \$ <i>—</i>                              | \$11,207   | <b>\$</b>  | \$12,809   |

The sensitivity analyses above are based on a change in a significant assumption (for example: change in discount rate or future salary), keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

There was no change in the methods and assumptions used in preparing the sensitivity analyses compared to the previous period.

#### (18) Equities

#### A. Common stock

As at 31 December 2021 and 2020, the Company's authorized capital were \$6,000,000 thousand, and issued capital were \$3,828,149 thousand and \$3,328,149 thousand respectively, each at a par value of NT\$10. Each share has one voting right and a right to receive dividends.

On 25 October 2021, the Company issued 50,000 thousand units of Global Depository Shares ("GDS") on the Luxembourg Stock Exchange, each representing a unit of ordinary shares of the Company. And totals in new issuance of 50,000 thousand common stock shares, each unit of GDS was priced at USD3.02, equivalent to NT\$84.5. Totals shares amounted to USD151,000 thousand. The rights and obligations of the new shares issued are the same as the original shares. As of December 31, 2021, the outstanding shares were 2,146 thousand units, representing 2,146 thousand shares.

| Restricted stocks for employees                       | 694          | 694          |
| Others  | 87,151       | 87,151       |
| Total   | \$6,086,155  | \$2,196,674  |

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

The transaction costs associated with the issuance of Global Depository Shares amounted to \$94,847 thousand which were recognized in the deduction of capital reserve.

# C. Treasury stock

To transfer shares to employees, the board of directors resolved to repurchase treasury stock on 23 March 2020. The estimated shares of repurchase were 10,000 thousand with the price range between \$10.54 to \$34.50, from 24 March 2020 to 23 May 2020.

As of 31 December 2021 and 2020, the treasury stock held by the Company were \$16,507 thousand, and the number of treasury stock held by the Company were 700 thousand shares.

#### D. Retained earnings and dividend policies

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- a. Payment of all taxes and dues
- b. Offset prior years' operation losses
- c. Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve
- d. Set aside or reverse special reserve in accordance with law and regulations
- e. The distribution of the remaining portion, if any, will be recommended by the board of directors and resolved in the shareholders' meeting

According to the provision of Article 240-5 of the Company Act, the Company should authorize the distributable dividends and bonuses in whole or in part are paid in cash after a resolution has been adopted by a majority vote at a meeting of the board of directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution is submitted to the shareholders' meeting.

The policy of dividend distribution approved by the Board should reflect factors such as the operating planning, investment plan, capital budgets, the changes of inner and outer environment. The Company in capital-intensive industries are currently in the stage of expansion. Considering the Company's need for future capital and the long-term financial planning; as well as the shareholders' need for cash inflow, the principle of earning distribution:

The dividend to shareholders should be paid in the form of cash as priority, or in the form of share dividend. Additionally, at least 10% of the dividends must be paid in the form of cash.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total authorized capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

According to the provision of Article 241 of the Company Act, the Company shall distribute the whole or a part of the statutory surplus reserve and capital surplus to shareholders in new shares or cash according to their shareholding percentage. When cash is distributed, a resolution adopted by a majority of the shareholders present who represent two-thirds or more of the total number of its outstanding shares of the company shall be required and reported to the shareholders meeting. When new shares are issued, it shall be submitted to the shareholders' meeting for approval before distribution.

When the Company distributing distributable earnings, it shall set aside to special reserve, an amount equal to "other net deductions from shareholders" equity for the current fiscal year, provided that if the company has already set aside special reserve according to the requirements for the adoption of IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

The FSC on 31 March 2021 issued Order No. Financial-Supervisory-Securities-Corporate 1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the Company can reverse the special reserve by the proportion of the special reserve first appropriated

and distribute it.

The special reserve upon first adoption amounted to \$200,400 thousand as of 1 January 2021 and 2020. Because of unused, disposal or reclassification of related assets, there was no reversal from special reserve to unappropriated earnings during the nine-month periods ended of 2021 and 2020. As of 31 December 2021 and 2020, the special reverse upon first adoption amounted to \$200,400 thousand.

Details of the 2021 and 2020 earnings distribution and dividends per share as approved and resolved by the board of directors meeting on 25 March 2022 and shareholders' meeting on 13 July 2021, are as follows:

|                             | Appropriation of earnings |             | Dividend per share (NT\$) |             |
|-----------------------------|---------------------------|-------------|---------------------------|-------------|
|                             | 2021                      | 2020        | 2021                      | 2020        |
| Legal reserve               | \$177,599                 | \$88,681    | \$-                       | \$-         |
| Special reserve             | <b>\$</b>                 | <b>\$</b> — | \$ <i>—</i>               | <b>\$</b> — |
| Common stock -cash dividend | \$1,146,345               | \$498,172   | \$3.00                    | \$1.50      |
| (Note)                      |                           |             |                           |             |

(Note) The Company resolved at the board of directors' meeting held on 25 March 2022 and 26 March 2021 to distribute the dividends of 2021 and 2020 in form of cash.

Please refer to Note 6.(22) for further details on employees' compensation and remuneration to directors and supervisors.

#### (19) Operating revenue

| Revenue from contracts with customers | For the years ende | ed 31 December |
|---------------------------------------|--------------------|----------------|
|                                       | 2021 2020          |                |
| Sale of goods                         | \$13,845,094       | \$10,475,269   |
| Other operating revenue               | 16,650             | 9,831          |
| Total                                 | \$13,861,744       | \$10,485,100   |

Analysis of revenue from contracts with customers during the years ended 31 December 2021 and 2020 are as follows:

#### A. Disaggregation of revenue

For the year ended 31 December 2021:

|               | Diodes       | Solar     | Other    | Total        |
|---------------|--------------|-----------|----------|--------------|
| Sale of goods | \$13,597,786 | \$220,900 | \$43,058 | \$13,861,744 |

For the year ended 31 December 2020:

|               | Diodes       | Solar     | Other    | Total        |
|---------------|--------------|-----------|----------|--------------|
| Sale of goods | \$10,226,964 | \$187,980 | \$70,156 | \$10,485,100 |

B. Contract balances

Contract liabilities - current

|                | As at        |              |
|----------------|--------------|--------------|
|                | 31 Dec. 2021 | 31 Dec. 2020 |
| Sales of goods | \$16,850     | \$12,772     |

The changes in the balance of contract liabilities of the Group in 2021 and 2020 were due to the fact that some of the performance obligations have been satisfied to be reclassified to increase in revenue or increase in advance receipts.

#### (20) Expected credit gains (losses):

|  | For the years ended | d 31 December |
|--|---------------------|---------------|
|  | 2021                | 2020          |
| Operation expense – Expected credit gains (losses) |                     |               |
| Trade receivables                                  | \$2,224             | \$2,318       |

Please refer to Note 12 for more details on credit risk management.

The Group measures the loss allowance of its trade receivables (including note receivables and trade receivables) at an amount equal to lifetime expected credit losses. The assessment of the Group's loss allowance as at 31 December 2021 and 2020 are as follows:

The Group considers the grouping of trade receivables by counterparties' credit rating, by geographical region and by industry sector, and its loss allowance is measure by using a provision matrix, details as follows:

|                                 | 1-90<br>days (Note) | 91-180<br>days | 181-270<br>days | 271-360<br>days | Over 361<br>days | Total       |
|---------------------------------|---------------------|----------------|-----------------|-----------------|------------------|-------------|
| Gross carrying amount           | \$3,842,063         | \$866,922      | \$864           | \$-             | \$1,372,425      | \$6,082,274 |
| Loss rate                       | _                   | 4.73%          | 20%             | _               | 100%             |             |
| Lifetime expected credit losses | _                   | (40,983)       | (173)           | —               | (1,372,425)      | (1,413,581) |
| Total                           | \$3,842,063         | \$825,939      | \$691           | \$-             | \$-              | \$4,668,693 |

| included in the measurement of lease liabilities             |                                 |         |
| Income from subleasing right-of-use assets                   | \$1,481                         | \$4,918 |

(D) Cash outflow relating to leasing activities

During the year ended 31 December 2021 and 2020, the Group's total cash outflows for leases amounting to \$47,742 thousand and \$42,854 thousand, respectively.

(E) Other information relating to leasing activities

Extension and termination options

Some of the Group's property rental agreement contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Group has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group.

After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Group is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

According to the Company's Articles of Incorporation, 6% of profit of the current year is distributable as employees' compensation and no higher than 2% of profit of the current year is distributable as remuneration to directors. However, the Company's accumulated losses shall have been covered.

According to Article 235-1 of the Company Act, the Company may, by a resolution adopted by a majority vote at a meeting of board of directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on the profit of the year ended 31 Dec. 2021, the Company estimated the amounts of the employees' compensation and remuneration to directors for the year ended 31 December 2021 to be 6% of profit of current year and 2% of profit of current year, respectively, recognized the amount of \$145,548 thousand and \$48,516 thousand. Employees' compensation and remuneration to directors for the years ended 31 Dec. 2020 amount of \$61,528 thousand and \$20,509 thousand, respectively, recognized as employee benefits expense. If the Board of Directors resolves to distribute employee compensation through stock, the number of stocks distributed is calculated based on total employee compensation divided by the closing price of the day before the Board of Directors, the Company will recognize the change as an adjustment in the profit of loss in the subsequent period.

A resolution was passed at the board meeting on 25 March 2022 to distribute dividend in cash in the amount of \$145,548 thousand and \$48,516 thousand for the year end 2021, and of \$61,528 thousand and \$20,509 thousand for the year ended 2020 as employees' compensation and remuneration to directors and supervisors, respectively. No material differences existed between the estimated amount and the actual distribution of the employee compensation and remuneration to directors for the years ended 2021 and 2020.

### (26) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

| Total   | \$12,876,687 | \$10,070,053 |

## (2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

## Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. The Group also uses forward contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for USD and EUR.

## Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates and interest rate swaps.

## Equity price risk

The Group's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified under financial assets measured at fair value through profit or loss and financial assets measured at fair value through other comprehensive income, while conversion rights of the Euro-convertible bonds issued are classified as financial liabilities at fair value through profit or loss as it does not satisfy the definition of an equity component. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

For the years ended 31 December

The sensitivity analysis of the change in the risk of exposure :

## (4) Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for trade receivables and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain counter parties credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

As of 31 December 2021 and 2020, trade receivables from top ten customers represent 20% and 17% of the total trade receivables of the Group, respectively. The credit concentration risk of other trade receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating and with no significant default risk. Consequently, there is no significant credit risk for these counter parties.

### (5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments, bank borrowings and finance leases. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as at the end of the reporting period.

| As at 1 Jan. 2020         | \$2,195,201 | \$3,411,195 | \$221,577          | \$5,827,973       |
| Cash flows                | (296,468)   | 1,281,617   | (42,854)           | 942,295           |
| Non-cash changes          | _           | 119         | 53,989             | 54,108            |
| Foreign exchange movement |             | (49,200)    | 5,312              | (43,888)          |
| As at 31 Dec. 2020        | \$1,898,733 | \$4,643,731 | \$238,024          | \$6,780,488       |

- (7) Fair values of financial instruments
  - (a) The methods and assumptions applied in determining the fair value of financial instruments:

The fair value of the financial assets and liabilities is determined at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- a. The carrying amount of cash and cash equivalents, financial assets measured at amortized cost, trade receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures, etc.) at the reporting date.

- c. Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- d. Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the Taipei Exchange, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- e. The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).
- (b) Fair value of financial instruments measured at amortized cost

The carrying amount of the Group's financial assets and liabilities measured at amortized cost approximate their fair value.

(c) Fair value measurement hierarchy of financial instruments

Please refer to Note 12.(9) for fair value measurement hierarchy for financial instruments of the Group.

(8) Derivatives financial instruments

The Group's derivative financial instruments include forward currency contracts and option contracts. The related information for derivative financial instruments not qualified for hedge accounting and not yet settled as of 31 December 2021 and 2020 is as follows:

## Forward currency contracts

The Group entered into forward currency contracts to manage its exposure to financial risk, but these contracts are not designated as hedging instruments. The paragraphs below lists the information related to forward currency contracts:

|                           | Items            | Notional Amount   |                  |
|---------------------------|------------------|-------------------|------------------|
|                           | (by contract)    | (thousand)        | Contract Period  |
| As at 31 Dec. 2021        |                  |                   |                  |
| PAN JIT ELECTRONIC (WUXI) | Forward currency | Sell USD \$ 4,900 | 28 January 2022~ |
| CO., LTD. (Subsidiary)    | contract         |                   | 28 February 2022 |
|                           |                  |                   |                  |
| As at 31 Dec. 2020        |                  |                   |                  |
| PANJIT INTERNATIONAL INC. | Forward currency | Sell USD 13,500   | 7 January 2021~  |
|                           | contract         |                   | 19 March 2021    |
| PYNMAX TECHNOLOGY CO.,    | Forward currency | Sell USD \$ 300   | 15 January 2021  |
| LTD. (Subsidiary)         | contract         |                   |                  |
| PAN JIT ELECTRONIC (WUXI) | Forward currency | Sell USD \$ 5,100 | 29 January 2021~ |
| CO., LTD. (Subsidiary)    | contract         |                   | 31 March 2021    |

The counterparties of aforementioned derivatives are well-known banks at domestic and abroad, with good credit, so the credit risk is low.

With regard to the forward foreign exchange contracts, as they have been entered into to hedge the foreign currency risk of net assets or net liabilities, and there will be corresponding cash inflow or outflows upon maturity and the Group has sufficient operating funds, the cash flow risk is insignificant.

- (9) Fair value measurement hierarchy
  - (a) Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

(b) Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

| As at 31 December 2021                      |             |             |             |             |
|---|-------------|-------------|-------------|-------------|
|   | Level 1     | Level 2     | Level 3     | Total       |
| Financial assets:                           |             |             |             |             |
| Financial assets at fair value through      |             |             |             |             |
| profit or loss                              |             |             |             |             |
| Fund  | \$ <i>—</i> | \$2,810,350 | \$-         | \$2,810,350 |

## Transfers between Level 1 and Level 2 during the period

During the years ended 31 December 2021 and 2020, there were no transfers between Level 1 and Level 2 fair value measurements.

## Information on significant unobservable inputs to valuation

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy for movements during the period is as follows:

|   | Financial assets at fair     |
|---|------------------------------|
|   | value through profit or loss |
|   | structured deposit           |
| Beginning balances as at 1 January 2021                 | \$660,927                    |
| Total gains and losses recognized for the year ended 31 |                              |
| December 2021:  |                              |
| Amount recognized in profit or loss                     |                              |
| (presented in "other profit or loss")                   | _                            |

The above information is disclosed based on the carrying amount of foreign currency (after conversion to functional currency).

The Group's functional currency are various, and hence is not able to disclose the information of exchange gains and losses by each significant assets and liabilities denominated in foreign currencies. The exchange (loss) gains of monetary financial assets and liabilities was 27,816 thousand and (46,498) thousand for the years ended 31 December 2021 and 2020, respectively.

(11)Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

(12)Jiangsu Aide Solar Energy (hereafter "Jiangsu Aide"), a subsidiary of the Company, and Xuzhou Zhongsheng Photovoltaic New Energy Company (hereafter "Zhong Sheng") signed an asset purchase contract on 2 July 2019. Zong Sheng purchased Jiangsu Aide's right-of-use asset, plant and certain equipment in the amount of \$337,422 thousand (RMB79,300 thousand), and assumed Jiangsu Aide's liabilities of \$262,691 thousand (RMB61,737 thousand). Jiangsu Aide and Zhong Sheng have entered into liabilities assignment agreement with the creditors of Jiangsu Aide that Zhong Sheng will assume the aforementioned liabilities.

As at the financial report date, as there were disputes regarding the transaction delivery terms and tax burden, the final payment of \$74,731 thousand (RMB 17,563 thousand) has been delivered by Zong Sheng to Jiangsu Aide on 22 January 2021. Zong Sheng has received from JiangSu Aide the land value increment tax of \$27,951 thousand (RMB 6,569 thousand). The amount of court fee was apportioned equally between both parties. JiangSu Aide has recognized the loss appropriately. The final judgement was immaterial to the financial statement in the current year.

(13)PANJIT International Inc. Gangshan factory had a fire incident on 29 March 2021, which caused damages on part of its building and equipment. The Company has resumed normal operation. The damaged assets were covered by insurance. The process of fire claims was completed.

## 13. Additional Disclosures

- (1) Information about Significant Transitions
  - a. Financing provided to others: Please refer to Attachment 1.
  - b. Endorsement/Guarantee for others: Please refer to Attachment 2.
  - c. Securities held at the end of the period (excluding subsidiaries, associates, and joint ventures): Please refer to Attachment 3.
  - d. Individual securities acquired or disposed of with accumulated amount exceeding the lower of NT\$300 million or 20 percent of the capital stock: Please refer to Attachment 4.

- e. Acquisition of individual real estate with amount exceeding the lower of NT\$300 million or 20 percent of the capital stock: Please refer to Attachment 5.
- f. Disposal of individual real estate with amount exceeding the lower of NT\$300 million or 20 percent of the capital stock: None
- g. Related party transactions for purchases and sales amounts exceeding the lower of NT\$100 million or 20 percent of the capital stock: Please refer to Attachment 6.
- h. Receivables from related parties with amounts exceeding the lower of NT\$100 million or 20 percent of capital stock: Please refer to Attachment 7.
- i. Financial instruments and derivative transactions: Please refer to Note 12(8).
- j. Business relationships and significant transactions and amount between parent company and subsidiaries and among subsidiaries: Please refer to Attachment 10.
- (2) Information of investees :

If the issuer directly or indirectly exercises significant influence or control over, or has a joint venture interest in, an investee company not in the Mainland Area, it shall disclose information on the investee company, showing the name, location, principal business activities, original investment amount, shareholding at the end of the period, profit or loss for the period, and recognized investment gain or loss: Please refer to Attachment 8.

- (3) Information on investment in Mainland China:
  - a. Information on investment in Mainland China: Please refer to Attachment 9
  - b. Directly or indirectly significant transactions through third regions with the investees in Mainland China, including price, payment terms, unrealized gain or loss:
    - i. The amount and percentage of purchases and the balance and percentage of the related payables at the end of the period: Please refer to Attachment 6.
    - ii. The amount and percentage of sales and the balance and percentage of the related receivables at the end of the period: Please refer to Attachment 6~7.
    - iii. The amount of property transactions and the amount of the resultant gains or losses: None.
    - iv. The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the period and the purposes: Please refer to Attachment 2.
    - v. The highest balance, the end of period balance, the interest rate range, and total current period interest with respect to financing of funds: Please refer to Attachment 1.
    - vi. Other transactions that have a material effect on the profit or loss for the period or on the financial position: None.
- (4) Information on major shareholders: Please refer to Attachment 11.

### 14. Segment information

- (1) For management purposes, the Group is consisted of business units on the basis of product characteristics and services, and has three reportable operating segments as follows:
  - a. Diodes: Manufacture and sale the wafers, power components and control module.
  - b. Solar: Sales of electricity.
  - c. Others: Lithium battery management system designed and manufactured.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured on the same basis with those in the consolidated financial statements. However financial cost, financial income and income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between operating segment are on an arm's length basis in a manner similar to transactions with third parties.

(Note 1): The numbering rule is as follows:

1. The parent company is coded "0".

2. The subsidiaries are coded consecutively beginning from "1" in the order presented in the table above.

(Note 2): Accounts receivable from associates, accounts receivable from related parties, shareholder transactions, advance payments, temporary payments... and other items, if they are in the nature of capital loans, must be filled in this form.

(Note 3): The nature of the fund loan should be listed as a business transaction or a short-run financing need.

(Note 4): If the nature of the fund loan is a business transaction, the business transaction amount should be disclosed. The business transaction amount refers to the amount of business transactions between the Company that lent the fund and the counterparty in the most recent year.

(Note 5): If the nature of the fund loan is short-run financing, the counterparty's reasons and the purpose for the loan should be specified, such as repayment of borrowings, purchase of equipment, business turnover... etc.

(Note 6): Pursuant to Article 14 Item 1 of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies, if a public company submits a capital loan to the Board of Directors for resolutions one by one, although the funds have not yet been allocated, the amount of the board of directors' resolutions should be included in the balance declared to expose the risk; however, if the funds are subsequently repaid, the balance after repayment shall be disclosed to reflect the adjustment of risk. Pursuant to Article 14 Item 2 of the Regulations, if a public company, through the resolution by the board of directors, authorizes the chairman of the board to allocate loans in installments or revolve them within a certain amount and within a one-year period, the capital loan and quota approved by the board of directors should still be used as the balance declared. Although the funds will be repaid thereafter, it is still possible to allocate the loan again, so the capital loan and quota approved by the board of directors.

(Note 7): For companies or merchants that are in need of short-term financing, the amount of individual loans and the total amount of capital loans to others by the Company shall not exceed 40% of the Company's net worth.

(1) PANJIT International Inc.: The net worth is NT\$12,895,868 thousand.

(Note 8): In accordance with the following regulations on the "Capital Loan to Others Operating Procedures" stipulated by each subsidiary of the Company, for companies or merchants that are in need of short-term financing, the amount of individual loans and the total amount of capital Loan to Others Shall not exceed 40% of that company's net worth. If the subsidiary of the Company, for companies in accordance with the following regulations on the "Capital Loan to Others shall not exceed 40% of that company's net worth. Calculate the net worth of the following companies in accordance with the operating Procedures:"

(1) PAN-JIT ASIA INTERNATIONAL INC .: The net worth is USD291,423 thousand, which is converted into NT\$8,066,589 thousand.

(Note 9): In accordance with the following regulations on the "Capital Loan to Others Operating Procedures" stipulated by each subsidiary of the Company, for companies or merchants that are in need of short-term financing, the amount of individual loans and the total amount of capital Loan to Others Operating Procedures" stipulated by each subsidiary of the Company, for companies or merchants that are in need of short-term financing, the amount of individual loans and the total amount of capital Loan to Others shall not exceed 40% of that company's net worth. If the subsidiary and the foreign companies in which the Company, for company, is not subject to the above restrictions, but the individual loan amount and the total amount of funds loaned to others shall not exceed 200% of that company's net worth. Calculate the net worth of the following companies in accordance with the operating procedures:

(1) Aide Energy Europe B.V.: The net worth is EUR21,871 thousand, which is converted into NT\$685,000 thousand.

(Note 10): In accordance with the following regulations on the "Capital Loan to Others Operating Procedures" and "Capital Loan to Others Processing Procedures" stipulated by each subsidiary of the Company, for companies or merchants that are in need of short-term financing, the amount of individual loans and the total amount of capital Loan to Others Shall not exceed 40% of that company's net worth. If the subsidiary and the foreign companies in which the directly and indirectly, hold 100% of the voting shares engage in fund lending, I is not subject to the above restrictions, but the individual loan amount and the total amount of funds loaned to others shall not exceed 100% of that company's net worth. Calculate the net worth of the following companies in accordance with the operating procedures:

(1) Suzhou Grande Electronics Co., Ltd.: The net worth is RMB164,320 thousand, which is converted into NT\$713,806 thousand.

(Note 11): In accordance with the following regulations on the Capital Loan to Others Operating Procedures stipulated by each subsidiary of the Company, for companies or merchants that are in need of short-term financing, the amount of individual loans and the total amount of capital loans to others shall not exceed 40% of that company's net worth. If the subsidiary and the foreign companies in which the Company, directly and indirectly, hold 100% of the voting shares engage in fund lending, It is not subject to the above restrictions, but the individual loan amount and the total amount of funds loaned to others shall not exceed 50% of that company's net worth. Calculate the net worth of the following companies in accordance with the operating procedures:

(1) PAN-JIT Electronics (Wuxi) Co., Ltd.: The net worth is RMB828,161 thousand, which is converted to NT\$3,597,531 thousand.

(Note 12): It had been written off in preparing the consolidated financial report.

|    | 0 P     | PANJIT International Inc. | PAN-JIT ASIA INTERNATIONAL INC. | 2                        | \$12,895,868   | \$1,888,260 | \$1,826,880                | \$1,826,880                    | -                                       | 14.17%   | \$12,895,868                                    | Y   | Ν                                       | N  | (Note 8) |

(Note 1): The numbering rule is as follows:

1. The parent company is coded "0".

2. The subsidiaries are coded consecutively beginning from "1" in the order presented in the table above.

(Note 2): The relationship between endorsement guarantor and the subject of endorsement or guarantee is as follows:

(1) A company with which the Company has business relationship.

(2) A subsidiary in which the Company directly or indirectly holds more than 50% of the voting shares.

(3) The investee company whose parent company and subsidiary hold more than 50% of the common stock.

(4) For the parent company that directly or indirectly holds more than 90% of its common stock equity through its subsidiaries.

(5) Mutually guaranteed companies among counterparts based on the need for undertaking projects.

(6) All capital contributing shareholders make endorsements/guarantees for their jointly invested Company in proportion to their shareholding percentages.

(7) Companies in the same industry provide among themselves joint and several security for a performance guarantee of a sales contract for pre-construction homes pursuant to the Consumer Protection Act for each other.

(Note 3): Information to be filled out: According to the operating procedures of endorsement and guarantee for others, the Company's limit of endorsement/guarantee for individuals and the maximum amount of endorsement/guarantee. In the remarks column, explain the calculation method of the endorsement/guarantee for individuals and the total amount.

#### (Note 4): Highest amount of outstanding endorsement/guarantee for others in current period.

- (Note 5): The amount approved by the Board of Directors should be filled. However, if according to Article 12, Paragraph 8 of the Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies, the Board of Directors has authorized the chairman, it refers to the amount decided by the chairman.
- (Note 6): The actual amount spent by the endorsed company within the range of the endorsed guarantee balance.
- (Note 7): Y is required only for those who are the listed parent company to endorse the subsidiary, those who are the subsidiary to endorse the listed parent company, and those who are located in the mainland area.
- (Note 8): According to the Company's "Procedures for Endorsement and Guarantee", the limit of the endorsement and guarantee for a single enterprise shall not exceed 100% of the Company's net worth (ie, NT\$12,895,868 thousand); The total amount of endorsement and guarantees for enterprises outside the Group shall not exceed 100% of the Company's net worth.

(Unit: NT\$ thousands, unless otherwise indicated)

Securities held at the end of the period (excluding subsidiaries, associates, and joint ventures)

Unit: USD, RMB, HKD thousand

|                           |   |                                 |                        |                          |          |                 |                  |                 | (Note 6)         |                 |                                     |   |                  |                   |

(Note 1): The securities mentioned in this attachment refer to stocks, bonds, beneficiary certificates and securities derived from the above items.

(Note 2): Investors who adopt the equity method for securities accounts must fill in these two columns, the rest are not required.

(Note 3): The accumulated buying and selling amount shall be calculated separately at market price whether it reaches NT\$300 million or 20% of the paid-in capital.

(Note 4): On 5 March 2021, the Group acquired 19.97% of common shares of ALLTOP TECHNOLOGY CO., LTD. In April 2021, the Group purchased additional 220,000 shares resulting in 19.99% of shares.

Until December 2021, the conversion of convertible bonds into shares of ALLTOP caused a change in equity ownership. The percentage of common shares held by the Group was subsequently diluted to 19.08%.

(Note 5): It is the share of profit and loss of subsidiaries accounted for using equity method, the exchange differences arising on translation of foreign operations, unrealised gains (losses) from investments in equity instruments measured at fair value through other comprehensive income, and departmental profit and loss elimination.

(Note 6): The adjustment to capital surplus does not apply to the change of investee's share of equity.

(Note 7): This amount is the original acquisition cost of NT\$1,557,524 thousand after deducting the cash dividend of NT\$101,954 thousand received this year.

(Note 1): If a public company is equipped with an overseas holding company and takes consolidated financial report as the main financial report according to the local law rules, it can only disclose the information of the overseas holding company about the disclosure of related overseas investee information.

(Note 2): If situation does not belong to Note 1, fill in the columns according to the following regulations:

(1) The columns of "Investee", "Location", "Main business activities", "Initial investment amount" and "Shares held as at December 31, 2021" should fill orderly in the Company's (public company's) information on investees and every directly or indirectly controlled investee's investment information, and note the relationship between the Company (public company) and its investee each (ex. direct subsidiary) in the "Note" column.

(2) The "Net income (loss) of investee company" column should fill in amount of net profit (loss) of the investee for this period.

(3) The "Investment income (loss) recognized" column should fill in the Company (public company) recognized investment income (loss) of its direct subsidiary and recognized investment income (loss) of its investee accounted for under the equity method for this period. When filling in recognized investment income (loss) of its direct subsidiary, the Company (public company) should confirm that direct subsidiary's net profit (loss) for this period has included its investment income (loss) which shall be recognized by regulations.

(Note 3): It is a limited company or a merged company, so there is no number of shares.

(Note 4): The investment gain or loss recognized by the Company include the offset of unrealized gain or loss between associates and the amortization of net equity differences.

(Note 5): It had been written off in preparing the consolidated financial report.

| Cumulative investment amou  | nt remitted from Taiwan to Mainland China at the end of the period | Investment amount appro | ved by Investment Review Committee of Ministry of<br>Economy | Investment ceiling in Mainland China according to provisions of<br>Investment Review Committee of Ministry of Economy |
|-----------------------------|--|-------------------------|--|---|
| PANJIT International Inc.   | \$2  | 598,592                 | \$2,989,163  | (Note 3)  |
| Pynmax Technology Co., Ltd. |  | \$34,806                | \$34,806   | (Note 4) \$1,325,328  |

(Note 1): The methods for engaging in investment in Mainland China include the following:

(1) Direct investment in Mainland China.

(2) Indirectly investment in Mainland China through companies registered in a third region (Please specify the name of the company in third region).

(3) Other methods.

(Note 2): The investment income (loss) recognized in current period:

(1) It should be indicated if the investee was still in the incorporation arrangement and had not yet any profit during this period.

(2) The investment income (loss) were determined based on the following basis,

A. The financial report was audited by an international certified public accounting firm in cooperation with an R.O.C. accounting firm.

B. The financial statements were audited by the auditors of the parent company.

C. Others.

(Note 3): Due to the Company's establishment of the operating headquarters, in accordance with the provisions of the law, the amount of investment in mainland China is not limited.

(Note 4) Calculations of investment ceiling in Mainland China are as follows:

Pynmax Technology Co., Ltd.: NT\$2,208,880 thousand × 60% = NT\$1,325,328 thousand.

(Note 5): It had been written off in preparing the consolidated financial report.

(Unit: NT\$ thousands, unless otherwise indicated)

(Note 1): The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is "0."

(2) The subsidiaries are numbered in order starting from "1."

(Note 2): Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

(Note 3):Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

(Note 4): If the transaction amount between parent and subsidiary reaches NT\$100 million or more, it shall be disclosed.

(Note 5): It had been written off in preparing the consolidated financial report.
